

WEDDING 14TH NOVEMBER 2011

Dear Lisa,

When my now wife approached me regarding hiring a wedding planner I was worried to say the least. My first thought was the dollar value for this type of personal service as keeping to some sort of budget was high on my priority list. I reluctantly went to a meeting however immediately felt comfortable with Lisa. Lisa was highly professional and had already "done the numbers" which to me were great. Lisa also explained in great detail the ins and outs of organising a wedding and I honestly was overwhelmed. At the end of our first meeting I was eager to sign the dotted line to avoid having a bridezilla on my hands.

Every step of the way Lisa was a pleasure to deal with and any small issues which arose were dealt with quickly and professionally. The whole process was so stress free and the time between planning and the actual day flew by! The day came and went and was everything myself and wife ever wanted. All of our guests could not speak more highly of how the venue looked down to the food and service provided.

I would like to take this opportunity to thank Lisa in all she has done to make our wedding perfect, I would highly recommend her services (and have done so since) to anyone thinking of planning their own wedding.

Thanks, Jarrod Batten (Groom)

Dear Lisa,

From start to finish you made the journey as stress free and smooth as any bride and groom could possibly imagine! In the beginning we didn't set out to have a wedding planner, we had already looked at venues and thought we had found the perfect place, until after meeting with the venues and having lengthy discussions we found most places were really restrictive. We had everything in our minds of what we wanted and had example pictures, but could not find somewhere that would cater for everything we wanted within our budget. We decided we would have our ceremony and reception at my Husband's Aunty and Uncles place not far from where we lived. It was a great central location and they had the most beautiful gardens and land that would cater perfectly for a marquee style reception.

Then came the planning, I had NO idea it would take so much time, effort and experience to pull it all together. As we both work full time, we found the only spare time we had was weekends, which just was not enough to plan a wedding in 11 months. We were recommended to Lisa by my hairdresser, from the very first meeting I wanted to sign the dotted line... only hurdle was convincing Jarrod that it would be worth our while. I convinced Jarrod to meet with Lisa and after the meeting we were all signed up and Lisa was going to take care of most parts of our wedding from the equipment hire, invitations, photographer, catering, staff and even my flowers (which were perfect).

We are both so thankful that we met Lisa, she was a great resource for ideas, and the suppliers that she recommended were top notch. Lisa organized everything to the finest detail and made the planning part easy and fun. I was able to fully enjoy the entire process from planning the wedding through to enjoying every single minute of my actual wedding day without having to worry about a thing. Throughout the whole planning process Jarrod and I were calm and stress free, there was not one disagreement and best of all NO TEARS from stress.

Lisa and her team were professional, friendly, and helpful. I didn't know I could have so much fun on my own wedding day, it was absolutely perfect!

Thanks, Amber Batten (Bride)
